

## WHEN CAN I JUMP?

As soon as you have returned your reservation form complete with booking deposit of £50 we will provide you with all the relevant information concerning your jump.

## WHERE ARE THE AIRFIELDS?

There are 25 centres across the United Kingdom; directions to your nearest one will follow with your jump confirmation.

## WHAT CAN I EXPECT ON THE DAY?

You will arrive at your local drop zone about 08.30 where you will pay the drop zone the outstanding balance for your jump, £300 cash (Which is part of your sponsored money which you will reimburse yourself when you collect in your sponsorship money). You will be asked to complete a British Parachute Association Membership Form. This is followed by your Ground School which lasts for approximately 6 hours where you will be taught the basics of body flight then followed by a short test.

You will jump from approximately 12,500 feet with 2 highly skilled staff either side of you as you reach speeds of around 120 miles per hour!

At approximately 5,000 feet you will pull your own ripcord and deploy your main parachute. Once your parachute has opened, you will steer it and land on the drop zone. As an added precaution, you will have a microphone and earpiece so that you are in constant contact with the ground and they can guide your landing.

We sincerely hope that you decide to take the plunge! It is a thrilling “once in a lifetime” experience.

There will be many other people parachuting for the first time on the day and you are welcome to bring along some friends so that they can watch you.

**A day you will simply never forget!**
